

PALABRAS ENCADENADAS

A word chain puzzle consisting of two rows of five light blue squares. The first square of the top row contains a trophy icon. Arrows connect the squares in a sequence: from the trophy square to the second square, then to the third, fourth, and fifth squares of the top row. A line then descends from the fifth square and connects to the first square of the bottom row. The bottom row continues with arrows connecting the second, third, fourth, and fifth squares. Below the chain are ten icons in white squares, each with a shadow, arranged in two rows of five. The top row of icons contains: a brown pig, a brown loafer shoe, a shovel, a yellow mug, and a green lizard. The bottom row of icons contains: a wooden bunk bed, a red tomato, a silver fork, and a silver spoon.
