

Unit 7 – Lesson 2 Using Earth's Resources

Finish each sentence. Tell what kind of pollution is shown in each picture.

1. This picture shows _____.

2. This picture shows _____.

All living things need water to live. Look at the photos. Think about how water is being used in each photo.

Using Water

Fill in each blank with the missing word.

1. In Photo 1, water is used for_____.
2. In Photo 2, water is used for_____.
3. In Photo 3, water is used for_____.

Circle the best answer for each question.

1. What natural resource do all living things need?
meat water oil
2. Why is clean air important?
People and animals breathe air. Air is all around us.
The air becomes polluted.

Think and Write Look at the chart below. In the space, write three ways you can use water.

How can I use water
