electric car

motorbike

old car

bicycle

horse and cart

walking

rickshaw

horse

III. Put the words into the correct order.

1. One will on live Mars. people day
2. Travelling by become will cheaper. probably plane
3. I beach be holidays popular. will think certainly less
4. personal will their People transporter. have
5. will everywhere People by pack. fly a jet

IV. Listen and fill in the missing words.

What transportation will you use in the future? What about an bicycle? It has a small electric motor that makes it easier to pedal quickly. It is great for going up hills.

Or do you want to try a transporter? It has two wheels and an electric motor. It can travel at kilometers per hour.

A pack has one or two jet engines, but it doesn't have any wings but it can anywhere. Do you want to try a jet pack? Where will you fly?
