❹. READING

I. Read the following passage and decide whether each of the statements is TRUE or FALSE.

Peter White has an idea of a new type of house for the future. The house will have new technology which will help it save a lot of energy. Firstly, a control panel will be the brain of the house. You can set the temperature, and the windows will close automatically when it's hot outside. Secondly, hot shower is usually a great start to the day, but this will be no normal shower. It will use rain water collected from the roof and heated by solar energy, or heat from the sun. Thirdly, the house will be a self-cleaning house. When you go are not at home, a system will recognize which place needs to be cleaned and do the cleaning. This house will be built and sold for those who are caring about the environment.
