

+ Practicamos la suma

Ejemplo

Mira cómo se hace.

$$\begin{array}{|c|c|c|c|c|} \hline \text{Bundled} & \text{Bundled} & \text{Bundled} & \text{Bundled} & \text{Bundled} \\ \hline \end{array} + \begin{array}{|c|c|c|c|c|c|c|c|c|c|} \hline \text{Single} & \text{Single} & \text{Single} & \text{Single} & \text{Single} & \text{Single} & \text{Single} & \text{Single} & \text{Single} & \text{Single} \\ \hline \end{array} = 55$$

$$\begin{array}{|c|c|} \hline \text{Bundled} & \text{Bundled} \\ \hline \end{array} + \begin{array}{|c|c|c|c|c|c|c|c|c|c|} \hline \text{Single} & \text{Single} & \text{Single} & \text{Single} & \text{Single} & \text{Single} & \text{Single} & \text{Single} & \text{Single} & \text{Single} \\ \hline \end{array} = 52$$

Ahora lo haces tú.

$\begin{array}{ c c c c c c c c c c } \hline \text{Bundled} & \text{Bundled} & \text{Bundled} & \text{Bundled} & \text{Bundled} & \text{Bundled} & \text{Bundled} & \text{Bundled} & \text{Bundled} & \text{Bundled} \\ \hline \end{array} + \begin{array}{ c c c c c c c c c c } \hline \text{Single} & \text{Single} & \text{Single} & \text{Single} & \text{Single} & \text{Single} & \text{Single} & \text{Single} & \text{Single} & \text{Single} \\ \hline \end{array} =$	$\begin{array}{ c c } \hline \text{Bundled} & \text{Bundled} \\ \hline \end{array} + \begin{array}{ c c c c c c c c c c } \hline \text{Single} & \text{Single} & \text{Single} & \text{Single} & \text{Single} & \text{Single} & \text{Single} & \text{Single} & \text{Single} & \text{Single} \\ \hline \end{array} =$
$\begin{array}{ c c c c c c c c c c } \hline \text{Bundled} & \text{Bundled} & \text{Bundled} & \text{Bundled} & \text{Bundled} & \text{Bundled} & \text{Bundled} & \text{Bundled} & \text{Bundled} & \text{Bundled} \\ \hline \end{array} + \begin{array}{ c c c c c c c c c c } \hline \text{Single} & \text{Single} & \text{Single} & \text{Single} & \text{Single} & \text{Single} & \text{Single} & \text{Single} & \text{Single} & \text{Single} \\ \hline \end{array} =$	$\begin{array}{ c c c c c c c c c c } \hline \text{Bundled} & \text{Bundled} & \text{Bundled} & \text{Bundled} & \text{Bundled} & \text{Bundled} & \text{Bundled} & \text{Bundled} & \text{Bundled} & \text{Bundled} \\ \hline \end{array} + \begin{array}{ c c c c c c c c c c } \hline \text{Single} & \text{Single} & \text{Single} & \text{Single} & \text{Single} & \text{Single} & \text{Single} & \text{Single} & \text{Single} & \text{Single} \\ \hline \end{array} =$
$\begin{array}{ c c c c c c c c c c } \hline \text{Bundled} & \text{Bundled} & \text{Bundled} & \text{Bundled} & \text{Bundled} & \text{Bundled} & \text{Bundled} & \text{Bundled} & \text{Bundled} & \text{Bundled} \\ \hline \end{array} + \begin{array}{ c c c c c c c c c c } \hline \text{Single} & \text{Single} & \text{Single} & \text{Single} & \text{Single} & \text{Single} & \text{Single} & \text{Single} & \text{Single} & \text{Single} \\ \hline \end{array} =$	$\begin{array}{ c c c c c c c c c c } \hline \text{Bundled} & \text{Bundled} & \text{Bundled} & \text{Bundled} & \text{Bundled} & \text{Bundled} & \text{Bundled} & \text{Bundled} & \text{Bundled} & \text{Bundled} \\ \hline \end{array} + \begin{array}{ c c c c c c c c c c } \hline \text{Single} & \text{Single} & \text{Single} & \text{Single} & \text{Single} & \text{Single} & \text{Single} & \text{Single} & \text{Single} & \text{Single} \\ \hline \end{array} =$

Resuelve estas sumas. Ahora sólo hay números.

$33 + 60 =$	$40 + 31 =$	$15 + 50 =$
$16 + 70 =$	$80 + 18 =$	$20 + 46 =$
$60 + 21 =$	$28 + 70 =$	$10 + 41 =$
$11 + 80 =$	$10 + 68 =$	$65 + 30 =$
