ANIMAL DRUG TESTING

Watch a film:

TASK 1. Answer the questions below. Use your own words, do not copy the subtitles:

1. Why do we do animal experiments?

2. What are the different sources of scientific data?

3. What are some arguments against animal drug testing?

4. What are some alternative ways to test drugs?

5. Why can't we do risk assessment without animal data? Which areas require such data?

TASK 2. What is your opinion on animal drug testing? Write 5-6 sentences:
