

**TASK 13:**

For questions 1-5, look at the learners' characteristics and the three possible activities listed A, B, and C. Choose the activity (A, B, or C) which matches the characteristic.

1. These learners are mainly kinaesthetic.
  - A) The learners in a group tell stories based on a series of pictures they look at
  - B) The learners go round the class Reading posters made by the other groups.
  - C) The learners listen to a recording about an athlete and fill in a table.
  
2. These learners have a short attention span.
  - A) The learners had to decide if certain verbs are followed by the gerund or the infinitive.
  - B) The learners matched words to explanations of their meanings to complete an exercise.
  - C) The learners ticked which word they heard in sets of minimal pairs.
  
3. These learners have not yet developed their abstract thinking skills.
  - A) The learners completed a gapped text by reading the words around each gap.
  - B) The learners listened to a recording and counted the stressed syllables in each word.
  - C) The learners listened to short dialogues and deduced who the speakers were.
  
4. These learners don't like taking risks.
  - A) The class invited an outside speaker to speak to them about the life of young people in her country.
  - B) The learners listened to their teacher read them a detective story.
  - C) The teacher gave her students an example of the target language.
  
5. These learners are age 7-8.
  - A) The learners read one another's emails and underlined and corrected the mistakes.
  - B) The learners used prompts to write new sentences with the same meanings but different words from the original sentences.
  - C) The learner summarized the contents of his recent presentation for his classmates.
