There are five people in my family. They are my parents, my two younger brothers and I. My mother works ..... a nurse in a big hospital. She has to work long hours and once a week she has to work on a night ..... My father is a biologist. He works from 8 a.m. to 5 p.m. in a lab, but sometimes when there is a project, he doesn't come home until very late ..... night. ..... my parents are very busy ..... work, they try to spend as ..... time with their children as possible. It is generally believed that "men build the house and women make it home", but in my family, both parents join hands to give us a nice house and a ..... home.
