Useful and Harmful Materials

Things can be useful or harmful depending on what we choose to do with them. Put a check in the box to describe whether what was done with these materials is useful or harmful.

composting fruit and vegetable peelings

- useful
- harmful

throwing banana peels with other trash

- useful
- harmful

reusing cardboard boxes for storage or play

- useful
- harmful

reusing glass jars for drinking or storing things

- useful
- harmful

throwing plastic water bottles anywhere

- useful
- harmful

using plastic water bottles as planters or bird feeders

- useful
- harmful

Remember: it's not what can be done with them that counts -- it's what you actually do!
