

I. Reading task:**DESCRIBING MY SCHOOL****A. ALL SCHOOLS NEED SOME BASIC FACILITIES FOR THE BETTERMENT OF THE STUDENTS:****The classroom:**

The classroom is a room in the school building where lessons are taught to the students. All children who attend school go to the classroom daily to learn and meet with their fellow students and teachers.

The library:

The library is a large room or hall within the school where the students, staff, and teachers of the school have access to various resources. It provides textbooks and other additional reading materials for different subjects.

The principal's office:

The principal's office is a functional administrative unit of the school. It is located within the school building.

The computer room:

The computer room, also known as the computer lab, serves as the centre for teaching the computer to classes, usually by a professional computer teacher. Classroom teachers also use the lab with their classes for research or for creating presentations and technology-based projects.

The music room:

The music room is a large room with floors for orchestra and choir rehearsals. The area is split into a classroom area and a performance area. It is furnished with a whiteboard, music system or sound system and wi-fi for direct streaming of music and music video clips during practice and rehearsals.

The art room:

The art room in a school is used for education in the visual arts.

The art room encourages each child to be creative, curious, and original in their work while studying various art forms such as 2D and 3D art and exploring mediums like oil pastels, pencil colouring, acrylic, charcoal, water colouring, dry pastels, clay art, and many other art forms.

The playground:

The playground in a school is a large open area with a hard surface just outside a school building, where the school children can play and perform other physical activities. It encourages children to use their energy in healthy interactions with each other.

The school grounds:

The school grounds are parts of land that is used for the provision of academic or extracurricular programs by the school.

The schoolyard:

The schoolyard is an outside area next to or surrounding a school where students can play or sports for recreation.

The gymnasium (gym):

The gymnasium is a particular room designed and equipped for various sports, physical training, and exercise in the school.

The science room:

The science room in a school is a room used for educating the students in the sciences. Many kinds of machines and chemicals are kept in this room.

The cafeteria:

The cafeteria is a dining area in the school building, where one can purchase food items or bring meals from home and eat.

The lockers:

The lockers provide a safe place to store personal items throughout the day in the school, where students can store textbooks, lunch, and other necessary belongings.

The teachers' room:

The teachers' room or **the staffroom** in a school is a common room that is a communal work area where teachers have their individual desks and prepare lessons if they do not have a personal office. The teachers or school staff also uses this room to relax, discuss work, eat, drink, and socialise when they are not taking classes.

The girls' room:

The girls' room in a school is a separate restroom that is used only by female students.

The boys' room:

The boys' room in a school is a separate restroom that is used only by male students.

The auditorium:

The auditorium is a large room with rows of seats and a stage used for performances and public events or meetings. An auditorium is equipped with a projector, effective and modern light and a sound system. It hosts numerous events.

The locker room:

The locker room in a school is furnished with lockers, used as a place for changing clothes and storing belongings.

The football field:

The football field, also called the football pitch, is an area of grass where football is played.

Subject My new school

Dear Ali,

How are things? I hope you're OK and that you're doing great. I'm sorry I haven't written for so long, but I had a little problem.

You will be glad to know that I have shifted to a new school. It is called Brandon High School. It is located near my house. It's one of the oldest and best schools in Arizona state. It was established in 1965, so it is now more than 50 years old.. There are more than 800 students and 60 teachers. This school has the credit of producing many eminent leaders in politics, education and administration. My school building is very spacious and beautiful. It provides many facilities to students. It has a nice playground where we can play outdoor games and chat with friends. As for teachers, they are very kind and experienced. I learn new things on each day of my school.

Anyway, I must sign off now, as I need to catch up on a great deal of homework. Don't forget to write me back and tell me about your school.

Your loving friend,

John
