

TEAM PRACTICE #5

SCAN ME

1- Trevor wants to collect enough money to purchase a video game system. The cost of the video game system is $349. So far Trevor has collected $182. How many more dollars does Trevor need to collect to purchase a video game system?

2- Cindy had 172 apples in a large and small basket. She had 95 apples in the large basket. How many apples did she have in the small basket?

3- Miguel had $912 dollars in his bank account. He spent $138 on a jacket. How much money does Miguel have remaining in his bank account?

4- On Monday a pizza shop sold 354 cheese pizzas. On Tuesday, the pizza shop sold 512 pizzas. What is the difference between the number of pizzas the pizza shop sold during these two days?

5- Gabriel purchased 95 chocolate chip cookies and 126 oatmeal cookies for a sports party. The people at the party ate 76 cookies. How many cookies were NOT eaten?
