

# 20 MINECRAFT CITY BUILDING IDEAS

\_\_\_\_\_ you ever \_\_\_\_\_ (want) to start a new  
 \_\_\_\_\_ server and start with a *gigantic*  
 building project with your friends? An urban city is a  
 \_\_\_\_\_ project we find in these situations.  
 There's something about \_\_\_\_\_ (see) modern  
 \_\_\_\_\_ and stores in a Minecraft world  
 that *lures* players to \_\_\_\_\_ their  
*renditions*.

**typical**

***come up with***

**multiplayer**

**apartments**

## 1. Modern Office Building

No city is \_\_\_\_\_ without a couple of  
\_\_\_\_\_ buildings you can see from any point  
on the nearby map. The video tutorial by Drewsmc is a  
\_\_\_\_\_ building project to pull off in Survival  
mode, so we don't \_\_\_\_\_ you if you desist from  
recreating this gigantic office building in your Minecraft city!

**accidental**

**high-rising**

**complete**

**undeniably**

If you \_\_\_\_\_ (be) afraid of losing your building from an  
\_\_\_\_\_ fire, you can always switch the Wool blocks  
with Concrete, \_\_\_\_\_ this may require additional  
resources in Survival. Regardless of your final choice, the  
beauty shots are \_\_\_\_\_ impressive.

**although**

**challenging**

**blame**

## 2. High-rise Apartment Building

If you're searching for \_\_\_\_\_ apartment designs to  
build in your Minecraft city, this video tutorial by  
HexRegulus may be the \_\_\_\_\_ piece of your  
urban puzzle. As we always \_\_\_\_\_ with these gigantic  
builds, use Scaffolds and equip an Elytra to \_\_\_\_\_ any  
nasty falls!

**suggest**

**additional**

**according**

**missing**

**dimensions**

Such massive \_\_\_\_\_ require around 7 to 8 stacks of  
White Concrete for each floor, \_\_\_\_\_ to players

who have recreated this building in Survival mode. We cannot \_\_\_\_\_ the original designs look outstanding, but you can use any other Concrete colour to \_\_\_\_\_ the orange bits in this high-rise apartment.

**replace**

**avoid**

**deny**

### 3. Coffee Shop

The following video tutorial by Grian will \_\_\_\_\_ you in how to build a Minecraft coffee shop. We've chosen this design because it's a beautiful and versatile building \_\_\_\_\_ Dark Oak and Dark Prismarine, and \_\_\_\_\_ interesting details that you can recreate in other Minecraft building designs. For \_\_\_\_\_, the windows include Glass Panes with Glass blocks to switch the \_\_\_\_\_ texture, and the flooring made out of Polished Andesite and Furnaces is a \_\_\_\_\_ we haven't seen before!

**combining**

**try out**

**combo**

**includes**

**monotonous**

**adapt**

**instance**

**guide**

The great thing about this Minecraft video tutorial is that you can \_\_\_\_\_ the idea for any other shop or store you need in your city, so we hope you \_\_\_\_\_ this design!
