

Read and listen. Who is optimistic and who is more pessimistic about the future?

6c In the future

Candy: What do you think Earth will be like in the future?
Dean: I think it will be a better place.
Candy: Really? I don't think it will be. I believe we'll destroy the environment and many countries will be like deserts.
Dean: I disagree with you. I'm sure scientists will find a way to protect the environment with technology.
Candy: I hope so. I don't think people will save water and use green energy.
Dean: I think they will.
Candy: Do you think we'll find life on other planets?
Dean: Maybe. I don't think it will happen soon. But I think we'll go on holiday to space and to the Moon.
Candy: It sounds unrealistic, but I agree with you. I've read that some rich people have already bought tickets for a trip to the Moon!
Dean: No way! Well, I don't believe humans will have to work hard in the future. Technology will do lots of things for us.
Candy: Do you mean robots?
Dean: Yes, I do. I think scientists will build robots that look like people and the robots will work for us.
Candy: I don't believe that. It sounds like a science fiction film.

TRUE / FALSE

1. Candy thinks the environment is in danger. TRUE / FALSE
2. Candy thinks her dessert is delicious. TRUE / FALSE
3. Candy believes people will use green energy. TRUE / FALSE
4. Dean is sure people will find life on other planets. TRUE / FALSE
5. Dean hopes that people will work hard in the future. TRUE / FALSE
6. Candy believes that science fiction films will be only about robots working for people. TRUE / FALSE
