

### Exercise 1

1. Prepare yourself by making  $x$  the subject in each of the following cases:

|                 |                      |
|-----------------|----------------------|
| a) $y = x + a$  | e) $y = \frac{x}{5}$ |
| b) $y = 2x - a$ | f) $2w = 3x$         |
| c) $y = 2x + 7$ | g) $ax - y = 2y$     |
| d) $y = 7 - 2x$ | h) $ax - y + z = b$  |
