

# Prime Factoring

**Prime factorization of 125**

(Numbers in order from least to greatest)

$$= \underline{\hspace{1cm}} \times \underline{\hspace{1cm}} \times \underline{\hspace{1cm}}$$

**Prime factorization of 60**

(Numbers in order from least to greatest)

$$= \underline{\hspace{1cm}} \times \underline{\hspace{1cm}} \times \underline{\hspace{1cm}} \times \underline{\hspace{1cm}}$$
