Polar bear

Polar bears live in the Arctic. It is the land of ice and snow. Polar bears have a layer of fat. It is called blubber. Blubber helps keep the Polar bears warm. They also have thick fur. The fur looks white but the hair is actually clear.

Polar bears have a good sense of smell. Some people call Polar bears "noses with legs"! They use the sense of smell to hunt for seals. Seals are their favorite food.

Polar bears are tiny when they are born. Their eyes are closed. They have short, fine fur. Mother polar bears feed their babies and keep them warm.

1. Where do polar bears live?

2. What helps keep polar bears warm?

3. What do polar bears like to eat best?

4. What nick name do people call polar bears?

5. What do mother polar bears do for their babies?
