

ENERGY RESOURCES

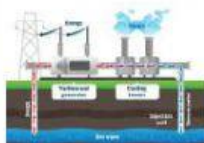

1. Look at the energy resources and select if they are **renewable** or **non-renewable**.

 Coal _____	 The Sun _____	 Water _____	 Oil _____	 Wind _____
 Biomass _____	 Uranium _____	 Geothermal _____	 Waves and tides _____	 Natural gas _____
 Wood _____				

Go to the next page!

2. Mark the energy resources that depend on the Sun.

 Coal <input data-bbox="293 510 376 595" type="checkbox"/>	 Wood <input data-bbox="521 510 604 595" type="checkbox"/>	 Water <input data-bbox="750 495 833 580" type="checkbox"/>	 Oil <input data-bbox="978 510 1061 595" type="checkbox"/>	 Wind <input data-bbox="1206 510 1289 595" type="checkbox"/>
 Biomass <input data-bbox="293 887 376 972" type="checkbox"/>	 Uranium <input data-bbox="521 887 604 972" type="checkbox"/>	 Geothermal <input data-bbox="750 925 833 1010" type="checkbox"/>	 Waves and tides <input data-bbox="978 925 1061 1010" type="checkbox"/>	 Natural gas <input data-bbox="1206 887 1289 972" type="checkbox"/>

3. Complete the steps of the water cycle.
