

PARTES DE UN TÉRMINO ALGEBRAICO

COEFICIENTE NUMÉRICO

EXPONENTE

FACTOR LITERAL

SIGNO

The diagram shows the algebraic term $-8a^3$ enclosed in a red rectangular box. This box is divided into two sections: the left section contains the coefficient -8 and the right section contains the literal factor a^3 . Red lines connect these sections to external labels: a line from the -8 section goes to the 'COEFICIENTE NUMÉRICO' label; a line from the a^3 section goes to the 'FACTOR LITERAL' label. Additionally, a line from the minus sign in -8 goes to the 'SIGNO' label. Another line from the a^3 section goes to an empty box, and a line from the top of the main box goes to another empty box. The 'EXPONENTE' label is also present but not connected to a specific part of the term.
