Hi, I'm Darth Maul and I am from Dathomir. It's a small red planet. It has got two moons and many forests. I don't like Dathomir, it's cold and wet. In fact, I HATE IT.

I'm a Sith (I use the Dark Side of the Force) and I want to become a Sith Lord like my teacher, Darth Tyrannus. We want to conquer the galaxy, but the Jedis don't like it, so they bully us. I hope we can be friends some day.

I don't have many friends, but I have got a brother. He is not a Sith like me, but he is really smart.

I travel around the galaxy and I love meeting new people. My favourite planet is Tatooine because it has got two suns. It's summer all the time!

May the Force be with you
