Designer: Jonathan Stiven Gonzalez Conde

a) Read the text carefully to answer the questions at point B.

PERSONALITY

When we refer to personality, we are talking about a set of characteristics of a person which define or determine their behavior. The **Logista** personality is the most common and represents 13% of the population.

Some of the characteristics of Logistics people are integrity, practical logic, and dedication to duty. (16 Personalities, 2013).

There are different types of personality traits between them positive and negative, among the positive personality traits are Creativity, understanding, courage flexibility, and honesty among others.

Negative personality traits include Conformism, laziness, fear, pride, and lack of imagination, among others.

In contrast, to the abundance of people with Logistic characteristics, there is a large percentage of the population who are conformists "They have no ambition about the future" and this is an issue that world education should focus on.

In another essay, we will be talking in more depth about the causes, consequences, and solutions of this topic.

b) Choose the correct answers according to the reading.

1. Which of the following characteristics don´t belong to Logista personality?

   a. Integrity
   b. Conformism
   c. Practical logic
   d. Dedication to duty
