

PART 6

1. Match the sentence halves.

- | | |
|---|---|
| <p>If objects have opposite charges,</p> | <p>it will not produce a current.</p> |
| <p>If electrons move from atom to atom,</p> | <p>some electrons will move from one object to another.</p> |
| <p>If there is an exchange of electrons between elements,</p> | <p>you will need four basic parts.</p> |
| <p>If an electrical circuit doesn't have a battery,</p> | <p>an electric current will happen.</p> |
| <p>If you rub two uncharged objects together,</p> | <p>this will result in an unequal number of electrons.</p> |
| <p>If you want to build an electrical circuit,</p> | <p>they will attract each other.</p> |

2. Put the words in order to create sentences.

his tomorrow. new is demonstrating invention He
