Burning a CD allows you to take music from one CD and transfer it onto another CD. This process is possible with any computer that has a CD driver, but it is easier on a computer that canrun two CDs at once. Either way, you can copy all your music from one CD to the next. Here is how to copy from one CD to another, using one and two CD drivers.
Instructions burning with two CD Trays

1. Insert the CD from which you want to burn music into your computer's CD tray. Insert a blankCD into your computer's second CD tray.
2. Open windows media player and wait for it to recognize the CD.
3. Click the "burn" option at the top of Windows Media Player. Drag the songs you want fromthe list of your songs into the area on the right labeled "Burn List".
4. Choose the blank CD onto which you want to burn your song. This can be done at the top ofthe Burn List Menu.
5. Click the "Start Burn" button when you have all the song you want for the CD added to theBurn List. Wait for your computer to finish the CD, then take both of the CDs out.
