

Practicamos la división

❖ Reparte los coches en los recuadros, recuerda uno en cada recuadro y luego otro. Luego indica que división es.

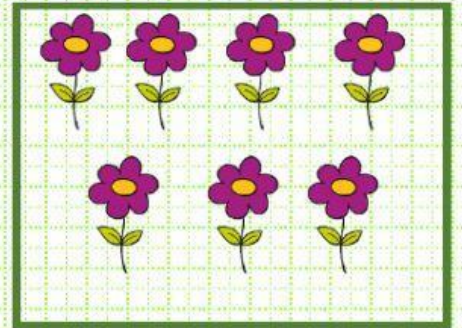

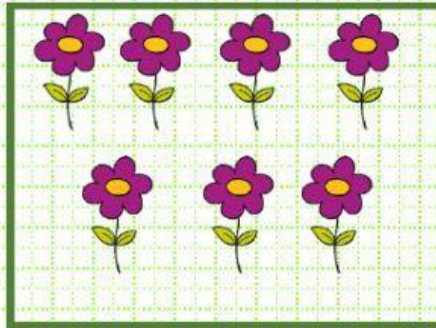

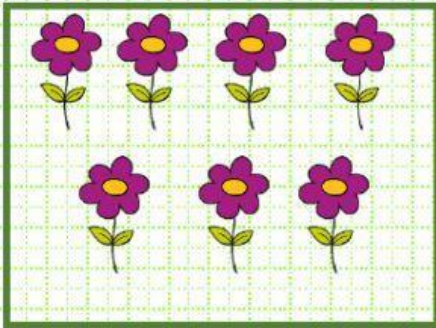

$$\square : \square = \square$$

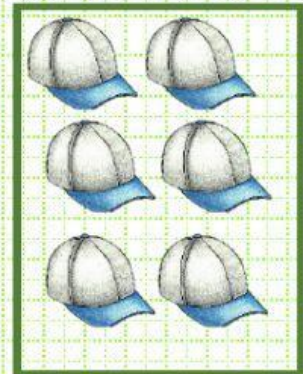

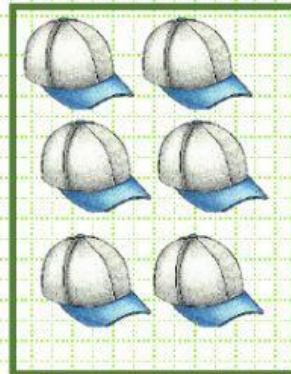

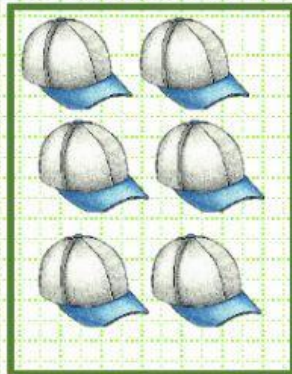

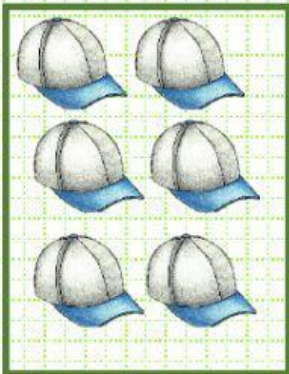

$$\square : \square = \square$$

❖ **Observa los siguientes repartos y la división e indica si la división es correcta o no lo es.**

$$28 : 3 = 7$$

$$24 : 4 = 6$$

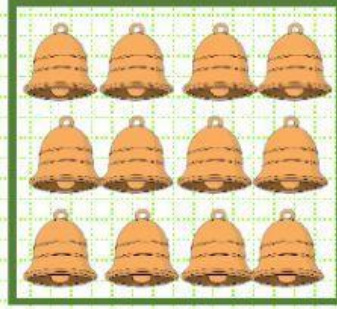

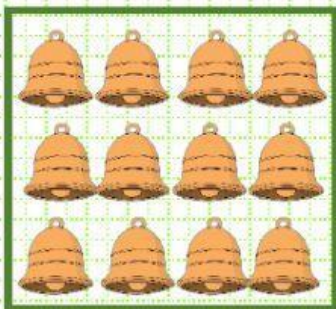

❖ **Observa los repartos y selecciona la división correcta.**

$$40 : 8 = 5$$

$$8 : 5 = 40$$

$$40 : 5 = 8$$

$$24 : 3 = 12$$

$$24 : 2 = 12$$

$$12 : 2 = 24$$
