Homework Week 8 Day 1

Reading Homework:

Laila and her friend Evie love the outdoors. Laila's mom decided to take the girls hiking. They had always wanted to hike on the Appalachian Trail. The trail is over 2000 miles long, but the girls would only be hiking a small portion of the trail - about 5 miles.

Saturday morning, the girls woke up eager to get started. They were dressed and had their bags packed even before the alarm clock went off. Since it would be a long hike, they only packed essential items such as water, snacks, a first aid kit, and bug spray.

Laila's dad dropped the group off at one of the entrances to the trail. They said goodbye and began their hike. Along the way, they saw a few animals in addition to the beautiful scenery. After a few hours of hiking the beautiful trail, the two girls began to feel weary from the hours of activity and their feet hurt.

"Don't worry girls," said Laila's mom. "Laila's dad will be waiting for us at the next trail entrance. We can rest our feet on the car ride home."

What is the meaning of portion?

A. entire
B. side
C. part
D. all

What is the meaning of eager?

A. tired
B. late
C. nervous
D. excited

What is the meaning of essential?

Math Homework:

1. The number of frogs in three ponds is shown in the table.

Pond	Number of Frogs
1	598
2	215
3	485

Based on the table, which is closest to the difference between the total number of frogs in Pond 1 and Pond 2 combined and the number of frogs in Pond 3?

a. 200	b. 300
c. 900	d. 1,300

2. Solve for the difference of 500,000 and 69,759.

a. 430,241	b. 441,351
c. 569,759	d. 541,351

3. Solve for the sum of 504,893 and 26,474.

a. 478,419	b. 530,377
c. 531,367	d. 769,633

LIVEWORKSHEETS

4. The school cafeteria sold 1,584 snacks last year. This year the school cafeteria sold 4,005 snacks. How many more snacks did the school cafeteria sell last year than this year?

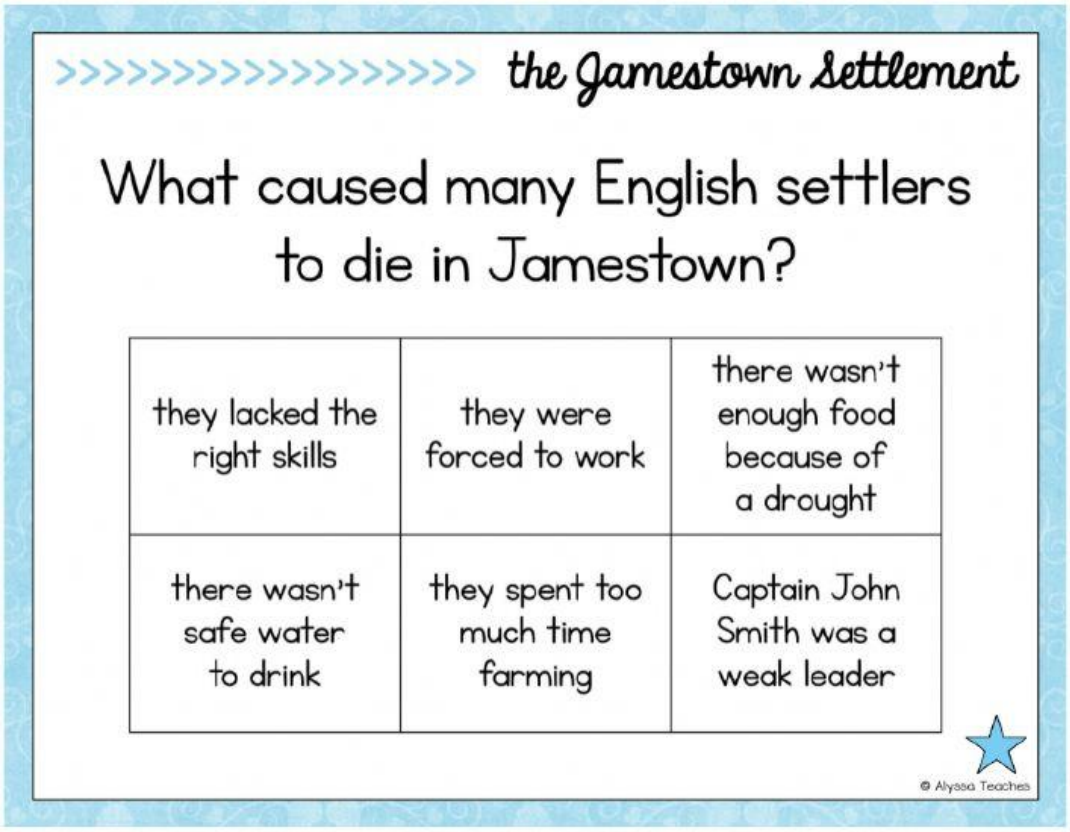

a. 6,689	b. 2,681
c. 1,321	d. 2,421

5. Solve for the product of 58 and 27.

a. 1,558	b. 1,566
c. 1,567	d. 1,574
