

PERÍMETRO Y ÁREA – 5TO. CICLO

1. Calcule el perímetro de los siguientes polígonos.

P= ____ mm

P= ____ mm

P= ____ mm

2. Calcule el área de los siguientes polígonos. Arrastre a cada casilla la fórmula que corresponde, luego realice los cálculos correspondientes.

$$A = L \times L$$

$$A = \frac{b \times h}{2}$$

Fórmula:

$$A = \frac{\square \circ \square}{\square}$$

$$A = \frac{\square}{\square}$$

$$A = \square \text{ cm}^2$$

Fórmula:

$$A = \square \circ \square$$

$$A = \square \text{ m}^2$$

$$A = \frac{b \times h}{2}$$

$$A = b \times a$$

Fórmula: 

$$A = \frac{\square \circ \square}{\square}$$

$$A = \frac{\square}{\square}$$

$$A = \square \text{ cm}^2$$

Fórmula: 

$$A = \square \circ \square$$

$$A = \square \text{ dm}^2$$
