

Mathematics
Comparing & Ordering Whole Numbers and Decimals

Use the symbols $<$, $>$ and $=$ to compare.

- | | |
|--------------|----------------------|
| 1) 27 986 | 43 028 |
| 2) 8 000 000 | 800 000 |
| 3) 0.376 | 0.400 |
| 4) 0.8 | 0.7392 |
| 5) 0.001 | 0.100 |
| 6) 0.340 | 0.34 |
| 7) 0.9865 | 1 |
| 8) 4 tenths | 4 hundredths |
| 9) 5 342 | 5 000 + 300 + 40 + 2 |

10) Arrange the following in ascending (least to greatest) order.

0.5 0.264 0.67 0.1396

11) Rearrange the following in descending (greatest to least) order.

0.03 0.301 0.333 0.301

12) Leshawn has a small aquarium at home. In this aquarium he has a starfish, a sand dollar, a sea cucumber and sea urchin. The starfish weighs 0.3 oz., the sand dollar weighs 0.043 oz., the sea cucumber 0.278 and the sea urchin 0.18 oz. Which echinoderm is heavier?

a

b

c

d
