

Nombre: _____ Número: _____ Curso: _____

Así es como Inés ha calculado la diferencia entre 3000 y 1758.

$$3000 - 1758 = \boxed{1242}$$

$$\begin{aligned} 3000 - 1000 &= 2000 \\ 2000 - 700 &= 1300 \\ 1300 - 50 &= 1250 \\ 1250 - 8 &= 1242 \end{aligned}$$

1 Usa el método de Inés y completa:

a) $\boxed{8000} - \boxed{3756} = \boxed{}$

$$\boxed{} - \boxed{} = \boxed{}$$

$$\boxed{} - \boxed{} = \boxed{}$$

$$\boxed{} - \boxed{} = \boxed{}$$

$$\boxed{} - \boxed{} = \boxed{}$$

b) $\boxed{9003} - \boxed{4562} = \boxed{}$

$$\boxed{} - \boxed{} = \boxed{}$$

$$\boxed{} - \boxed{} = \boxed{}$$

$$\boxed{} - \boxed{} = \boxed{}$$

$$\boxed{} - \boxed{} = \boxed{}$$

c) $\boxed{8005} - \boxed{5351} = \boxed{}$

$\boxed{} - \boxed{} = \boxed{}$

$\boxed{} - \boxed{} = \boxed{}$

$\boxed{} - \boxed{} = \boxed{}$

$\boxed{} - \boxed{} = \boxed{}$

¡Bien hecho!
