Eating in the dark makes food tastier! If you aren't <sup>1</sup>  convinced, try it! 'Dining in the dark' experiences are now <sup>2</sup>  available in many cities. You need to be exceptionally <sup>3</sup>  with your knife and fork, to avoid accidents! At first, eating can be somewhat <sup>4</sup> , but after a while, you'll notice that even fairly <sup>5</sup> , boring foods become more interesting. Unfortunately, foods you don't like may seem <sup>6</sup>  repulsive!

5. Choose the correct option: Active or passive.

### The Blue Whale

The blue whale is the largest living creature on Earth. Usually these whales find / are found (**find**) in the cold Arctic and Antarctic oceans, but in the winter they force / are forced (**force**) to travel to warmer waters for food. It think / are thought (**think**) that there were once

hundreds of thousands of blue whales, although today only about 1,000 exist. During the last century, blue whales hunted / were hunted (**hunt**) for food and for whalebone, which used / was used (**use**) to make women's clothing. In 1930, 30 thousand blue whales killed / were killed (**kill**) by hunters. Today commercial whaling bans / is banned (**ban**), and it hopes / is hoped (**hope**) that one day thousands of blue whales will be seen in the world's ocean again. The mechanism behind modern whale migration debates / is debated (**debate**) since they are not as specific in their movement patterns as other species, and there is substantial evidence of alternative strategies, such as year-round residency, partial or differential migration, and anomalous habits such as feeding on breeding grounds. It knows / is known (**know**) that their natural predator is the orca, and whales near the waters of California have been sighted with scars that prove their encounter. Blue whales protected / were protected (**protect**) in areas of the Southern Hemisphere starting in 1939, and such protection has been extended so much that today they classify / are classified (**classify**) as *endangered* under the Endangered Species Act and considers / is considered (**consider**) *depleted* and *strategic* under the Marine Mammal Protection Act. They are definitely a wonder of our oceans!
