

SCHOOL AT HOME

Mary is nine years old. She is Spanish. Marie lives in a small town with her family. She loves school. Now, she doesn't go to school because there is a pandemic called coronavirus.

In her town, there are four schools, but all the schools are closed. Mary, studies at home. She has all her books, pens and notebooks but her lessons are on the computer.

Every morning, Mary gets up early, gets dressed and sits in front of her laptop. On Tuesdays, at 10:00, her English teacher invites all the students to a videoconference. She can talk to her teacher and the other students in her class. Then, when she finishes the activity she emails her homework. In the afternoon, she plays games with her family or reads interesting books. In the evening, she goes for a walk with her brother and parents.

All the children are at home at the moment. Mary misses her friends and teachers but she knows that she has to stay at home. She hopes the pandemic goes away to go back to school and play in the playground with her friends.
