## ABCs of Ecosystems

Match the following abiotic and biotic components of ecosystems Hint: Abiotic refers to non-living, biotic refers to living

Animals	
Air Quality	
Bacteria	_ 43
pH	
Water Quality	
Soil Quality	
Plants	
Light Intensity	_ , ,
Humidity	_ (0)-
Predator/Prey Relations	
Invasion	
Nutrient Availability	
Salinity	
Pisease	#I IVEWORKSHEET
