

Repasamos las tablas del 1 – 5

$6 \times 1 = \square$

$7 \times 1 = \square$

$8 \times 1 = \square$

$9 \times 1 = \square$

$10 \times 1 = \square$

$6 \times 2 = \square$

$7 \times 2 = \square$

$8 \times 2 = \square$

$9 \times 2 = \square$

$10 \times 2 = \square$

$6 \times 3 = \square$

$7 \times 3 = \square$

$8 \times 3 = \square$

$9 \times 3 = \square$

$10 \times 3 = \square$

$6 \times 4 = \square$

$7 \times 4 = \square$

$8 \times 4 = \square$

$9 \times 4 = \square$

$10 \times 4 = \square$

$6 \times 5 = \square$

$7 \times 5 = \square$

$8 \times 5 = \square$

$9 \times 5 = \square$

$10 \times 5 = \square$

$6 \times 6 = \square$

$7 \times 6 = \square$

$8 \times 6 = \square$

$9 \times 6 = \square$

$10 \times 6 = \square$

$6 \times 7 = \square$

$7 \times 7 = \square$

$8 \times 7 = \square$

$9 \times 7 = \square$

$10 \times 7 = \square$

$6 \times 8 = \square$

$7 \times 8 = \square$

$8 \times 8 = \square$

$9 \times 8 = \square$

$10 \times 8 = \square$

$6 \times 9 = \square$

$7 \times 9 = \square$

$8 \times 9 = \square$

$9 \times 9 = \square$

$10 \times 9 = \square$

$6 \times 10 = \square$

$7 \times 10 = \square$

$8 \times 10 = \square$

$9 \times 10 = \square$

$10 \times 10 = \square$

Resuelve las siguientes multiplicaciones

$$\begin{array}{r} \square \\ 25 \\ \times 6 \\ \hline \square \square \end{array}$$

$$\begin{array}{r} \square \\ 36 \\ \times 8 \\ \hline \square \square \end{array}$$

$$\begin{array}{r} \square \\ 47 \\ \times 9 \\ \hline \square \square \end{array}$$

$$\begin{array}{r} \square \\ 69 \\ \times 6 \\ \hline \square \square \end{array}$$
