## "THE DRIVE"

I saw a film called "The Drive" recently and I'd like to tell you about it. I think "The Drive is (1) \_\_\_\_\_ of the best films I've ever seen. If you're into action, adventure and great characters, then I'm sure you (2) \_\_\_\_\_ love it too.

The story (3) \_\_\_\_\_ set about 100 years in the future. The heroes are two doctors, Jem and Mary, (4) \_\_\_\_\_ meet a young patient called Seb. Seb has a rare illness and must travel across the country to another hospital to get special help for it. Jem and Mary agree to drive Seb. (Seb can't travel on airplanes because (5) \_\_\_\_\_ his illness.) However, they must drive through many dangerous areas to get there.

I won't tell you what happens in (6) \_\_\_\_\_ end, but I'd like to suggest one thing. Go and see this film!
