How to Plant Cassava Step-by-Step Part 2

Standard One

Agriculture Science

10th November, 2022

LIVEWORKSHEETS

STEP 8

Plant until all of the cassava sticks have been placed in a straight line on your garden beds.

LIVEWORKSHEETS

STEP 9

Use a watering can and gently water the soil around each cassava stick with 250mls of water.

LIVEWORKSHEETS

STEP 10

Wash the tools and your hands with soap then place all tools inside the toolshed.

LIVEWORKSHEETS

When your cassava sticks begin to grow, it will look like the plants in the pictures. Under the ground the roots are growing also, and that is the part that we want for food.

LIVEWORKSHEETS

When you pull out the plant from the ground, this is what the roots look like, which is the cassava itself.

We then peel it, cook it and eat it. Enjoy.
