

PREPARE TO WRITE: Using an Idea Web

An **idea web** helps you see how different topics are related to one central theme.

Imagine your life in the year 2175. Look at the topics in the idea web. Close your eyes and try to create a mental picture of yourself and your life. Think about the topics in the circles as they relate to your life. Write your ideas about each topic in the circles. Be sure to include details and adjectives.
