

One time, to know that it's
One time, to know how it feels, that's all
One call, your on the phone
One place, a alone, that's all
What do you?
What do you?
What are the signs?
What do I?
Just follow your lifeline through
What if it?
What then? What do we do?
What do you?
Don't your lifelines away

One time, just in my life
Yeah, one time, to know it can twice
One shot, of a blue sky
One look, I no reasons why we can't
One chance to be back to the point where starts
One chance to it together, things fall apart
Once I make us it's true
What do you?
Where do we?
What are the signs?
How do we grow? By letting your lifeline show
What if we do? What up to now?
What do you?
How do I?
Don't your lifeline go
