### PART 4 Reading

Read the following passage and mark the letter A, B, C or D on your answer sheet to indicate the correct answer to each of the questions

Online shopping can certainly be an awesome way to go. No lines, no traffic, no crowds of people. But is online shopping safer?

Experts says that online consumers may now be better protected than traditional shoppers, especially if they follow a few useful tips. First of all, make sure that you are on the site of a real company. Some thieves have created websites that look like the real one just to get your information and money. The best way to check if a site is real is to look for the "s", which stands

for “secure”, in the “https” part of the website address bar. Another indication of a safe website is a special icon in the shape of a padlock which you can find on the browser bar. And it is better to shop with online companies that you know and trust. Secondly, make sure your computer has a firewall and up-to-date antivirus software. Updating your software is one of the easiest things you can do to stop hackers from attacking your system and protect your personal information. Moreover, **beware** of links to deals that are too good to be true on social networking sites. If you have doubts, contact the sellers directly. Finally, keep the details of your purchase in a safe place. Save or print the receipt, your order confirmation number and the tracking number. If you have a problem with the order, this information will help you solve the problem quickly.

26. Which of the following statements is NOT true?

- |                                                                                      |                                                             |                                                    |                                                            |
|--------------------------------------------------------------------------------------|-------------------------------------------------------------|----------------------------------------------------|------------------------------------------------------------|

#### GEN Z SHOPPING HABITS

Generation Z (or Gen Z in short) are people who were born after 1996. They are more or less born with a phone in their hand. Three-quarters of Gen Z shop on their smartphones – more than any other generation. They search for products on sales through the (36) \_\_\_\_\_'s app or website and receive discounts or coupons on their mobile devices. Unlike older age groups, Gen Z shoppers are (37) \_\_\_\_\_ likely to trust companies. Instead, they choose to follow influencers on Instagram, Tik Tok or YouTube. Since they frequently document their life on social media, lots of Gen Z feel a (38) \_\_\_\_\_ to always have new clothes. They look for unique items that can set them apart, but they don't have much money. That's why one-third of Gen Z like shopping at (39) \_\_\_\_\_ stores where they can buy clothes with better materials, trendier styles and lower prices. Teenage boys tend to spend most of their money (40) \_\_\_\_\_ video games and food, while teenage girls pay a lot of money for clothes and beauty products. They still seek out in-person experiences, too. In fact, Gen Z prefer to shop in a physical store for certain items like electronic devices and clothing.
