### 11 Choose the correct answers.

**Sue:** Hi, Ben. Can I ask you about your diabetes alert dog? I've got diabetes and I'd like my parents to get me an alert dog, too.

**Ben:** That's great. If you <sup>1</sup> **get / got** an alert dog, your life would change. It <sup>2</sup> **would warn / will warn** you if you needed medicine, and it would get help if you <sup>3</sup> **have / had** a problem.

**Sue:** Yesterday, I became really dizzy because my blood sugar was low. If I had known about my sugar, I <sup>4</sup> **wouldn't wait / wouldn't have waited** to take my medicine. How does the dog know?

**Ben:** Alert dogs are trained to notice their owner's breath and behaviour. If you <sup>5</sup> **had had / had** an alert dog near you yesterday when your blood sugar was low, the dog would have smelled it on your breath. Alert dogs <sup>6</sup> **will always take / would always take** action if they think there is an emergency.

**Sue:** What exactly do they do?

**Ben:** If a dog <sup>7</sup> **sensed / senses** a problem, it will push you with its paws or it will make a noise.

**Sue:** That's amazing! I'll tell my parents. If they <sup>8</sup> **don't agree / hadn't agreed** to get an alert dog now, I'll be very surprised.
