

I. READ AND WRITE THE MISSING WORDS. WRITE ONE WORD ON EACH LINE

I didn't have **to** go to school again today because I'm still here in hospital. But I have made lots
(1)..... new friends and the nurses make us all laugh.

At about half (2) four, the nicest nurse came into my room and
turned (3) the TV because the football match was starting. Our team
won, two goals to one!

Dinner was OK too. We (4) fish and chips! And Mum brought
me a great present. It's the new soccer game. I played (5) all evening.

II. WHAT'S THIS ? WRITE THE WORDS ON THE LINES

Wood	metal	paper	plastic	glass	wool
------	-------	-------	---------	-------	------

1. This comes from trees. It's hard but you can cut it and make things like shelves or bookcases with it.
2. This comes from animals like sheep. Warm clothes like scarves and sweaters are made with it.
3. You can write or draw on pieces of this. It's usually made from trees and is flat and often white.
4. Expensive rings, necklaces and crowns are sometimes made of this.
5. You can see through this so we use it to make things like windows. But did you know it's made from sand?

III. READ ABOUT GLASS. CHOOSE THE RIGHT WORDS AND WRITE THEM ON THE LINES.

Glass isn't new. People were making glass bowls and bottles more than 5.000 years (1)
, actually. But no one has ever found out who made glass first, or when and where that (2)
.....

One story tells (3) that some men from a ship arrived on a beach and
decided to make a meal. They made a fire on the sand and (4)
some small rocks in the middle of the fire to cook on. The fire burned (5)
..... a very long time and the rocks got really hot. Little pieces of rock
began (6) with the sand to make glass!

So (7) next time you look through a window, look at a
mirror (8) are holding a glass of water, think, "Wow! This
glass is made from very, very hot sand!"
