QUIZ

Unit 4 : The Earth's Blanket

• Unscramble the words. Then match them with the correct pictures.

	huge	sunshine	space	worry	danger	blanket
1. e n d r g a					• a.	
2. o r y w r				• b.		
3. i n e h n s s u				• c.		
4. l k e t a n b				• d.		
5. g e u h				• e.		
6. c a s p e				• f.		

• Complete the sentence. One is extra.

	blanket	toward	strong	worry
7. I am not _____ enough to pick up the big rock.				
8. When it's cold, I sleep with an extra _____.				
9. Rocks coming _____ earth usually burn up in the atmosphere.				

Listen and read. Answer the questions carefully.

The earth is in danger! There are huge rocks in space. They are dangerous! The sun's light is strong. It could hurt us.

But don't worry. The earth has an atmosphere. The atmosphere is the air around the earth.

The atmosphere is like a blanket. It keeps the earth warm. It stops rocks. Rocks coming toward the earth burn in the atmosphere. We call them "shooting stars." The atmosphere also makes sunshine safer for us.

- The story is about _____.
a. the atmosphere b. danger from space c. sun light
- _____ burning in the atmosphere are called "shooting stars."
a. Space b. Sunshine c. Rocks
- What protects us from the dangers in space?
a. shooting stars b. a blanket c. the atmosphere
