Cuc Phuong National Park

The hottest season is from May to September. The warmest month is July with an average maximum temperature of 33°C. The coldest month is January with an average maximum temperature of 19° C. The best time to explore Cuc Phuong National Park is the dry season, from December to April.

There are many limestone mountains. The highest peak is May Bac with 648 meters above sea level.

There are more than 300 species of birds and 135 mammal species. The most interesting animal is the Delacour's Langur, one of the rarest primates on earth.
