

# WINTER GAMES

Winter is the coldest season. It has three months: December, January, February. In winter the weather is cold and sometimes wet. The temperature is below zero. The nights are long and the days are short. The sun doesn't shine brightly.

Winter is a good time for sports. In winter children have winter holidays and spend time outdoors. They like to play in the yard or in the park. It's fun to make a snowman or play snowballs. Children like to skate, ski and sledge. Boys like to play hockey. Girls like figure skating. I like winter.
