All night long no talking
Every word's been spoken
Moon is t, more and more
Laying d n till morning brakes
Up the sun come stalking
Time has stopped somehow
Still and calm, on and on
Being awake till morning brakes

The wind is not blowing
Everything is quiet too
The world is sleeping
Everything's turning blue
Face to face no talking
tumn's d n has broken
So frozen... so frozen...
Silence... silence...
