Take my ....., take them aside

Take my face, and desecrate

My ..... and legs

They get in the way

And take my ....., they'll understand

Take my ....., pull it apart

And take my ....., or what remains

And throw it all away

'Cause I've grown tired of this body

A cumbersome and .....body

Take my ....., take them and run

Take my ....., go have some fun

And take the ....., take them and disappear

Take my joints, take them for points

Take my ....., tear through my cheeks

And take the ....., go and dispose

Oh, would you go dispose, just go dispose

I've grown tired of this body

Fall apart ..... me body
