

# The Grand Hotel Mystery

I was staying at the Grand Hotel. One afternoon, I <sup>1</sup>~~was~~/had been very tired because I <sup>2</sup>~~had~~/had had a very busy morning. After lunch, I <sup>3</sup>~~went~~/had gone back to my room and <sup>4</sup>~~went~~/had gone to sleep.

I <sup>5</sup>~~was~~/had been asleep for an hour or so when I <sup>6</sup>~~heard~~/had heard a knock at the door.

Before I could say anything, a woman <sup>7</sup>~~walked~~/had walked into my room. She <sup>8</sup>~~saw~~/had seen I was there, and quickly apologised. She said she <sup>9</sup>~~made~~/had made a mistake and that she <sup>10</sup>~~thought~~/had thought it was her room. She <sup>11</sup>~~left~~/had left in a hurry.

Suddenly, I <sup>12</sup>~~realised~~/had realised that the woman <sup>13</sup>~~lied~~/had lied to me! I <sup>14</sup>~~called~~/had called the police to report her. They <sup>15</sup>~~arrested~~/had arrested her later that day after discovering that she <sup>16</sup>~~stole~~/had stolen some jewellery from another room at the same hotel.

The police asked me how I knew that the thief <sup>17</sup>~~didn't make~~/hadn't made a mistake when she came into my room. Can you work it out?
