

TYPES OF ENERGY

1. Match the pictures to the type of energy they show.

thermal

light

kinetic

electrical

sound

2. Write the energy type.

thermal

light

kinetic

electrical

sound

a) We can see it: _____ energy.

b) We can hear it: _____ energy.

c) It is produced by the flow of electric charge: _____ energy.

d) It produces heat: _____ energy.

e) It is the energy of objects in motion: _____ energy.

3. What does it need? Select.

What does it produce? Match.

thermal

light

kinetic

electrical

sound
