'SAN PIO X' PRIMARY SCHOOL
NATURAL SCIENCE

Name: _____

Date: _____

Angiosperms

They are plants that grow fruit with seeds. The seeds are found inside the fruit, like in apple trees.

Gymnosperms

They are plants that have seed but do not have fruit. For instance, in pine trees, the pine cone is not a fruit, it is a flower.

ANGIOSPERMS OR GYMNOSPERMS?

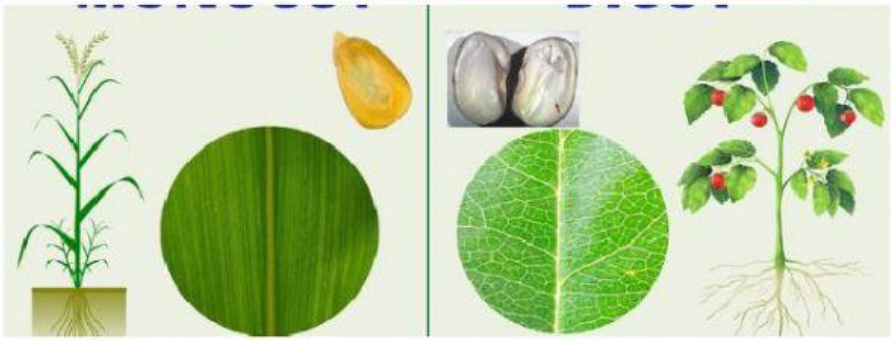

ANGIOSPERMS

GYMNOSPERMS
