LIVEWORKSHEETS

READING 2 (Items 5–10) **(6 marks)**

Read the text. Then complete the task.

There are three meals every day and breakfast is an important meal because it gives you energy to start the day. We all agree that when you don't have a good breakfast, you feel hungry and eat cakes, biscuits or sweet before lunchtime. I think this type of food is bad for you because it is not healthy and has lots of sugar and fat. Apart from providing us with energy, breakfast is a good source of important nutrients such as calcium, iron and B vitamins as well as protein and fiber. The body needs these essential nutrients and if these are missed at breakfast, they are difficult to be taken later in the day. Breakfast restores glucose levels, an essential carbohydrate that is needed for the brain to work. In addition, eating breakfast can improve our memory and make us happier and more active. Moreover, breakfast helps students to learn better and behave well in the classroom. This can help to improve their grades at school. Just like any other organ in the body, the brain needs energy to work at its best. To conclude, I think, breakfast is the most important meal of the day. It provides you with the energy and nutrients that lead to increase your concentration in the classroom. Therefore, students should not miss breakfast at all.

READING 2 (continued)

For each item, shade in the bubble ⬭ next to the correct option.

5. ..... is the most important meal because it gives energy to the body.
⬭ lunch ⬭ breakfast ⬭ dinner
