7.1:Find Area of Parallelogram and Rhombuses

# Task 1

( Do NOW)

Time: 2 minutes

Learning intention

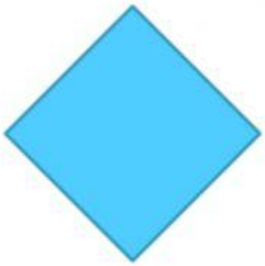

Use Formula to find the Area of parallelograms and rhombuses

**Polish your mind, trust it, and recall Your skills, then answer the question :**

## Match the shape with its name for the following shapes:

Rhombus

Parallelogram

**Success Criteria:**

1- I can identify the Area of parallelograms and Rhombuses

2- I can Compute the Area of parallelograms and Rhombuses

3- I can Apply The Area of parallelogram and Rhombuses in Real life Application

4- I can generalize the formula and find the missing height or width from given Area of parallelogram or Rhombuses

**Vocabulary:**

- *Area , Parallelogram , Rhombus.*
