

Exercise 3

Complete the table with the words and phrases in the box to create common prepositional phrases.

To achieve a higher band score in IELTS, you are expected to be able to use common prepositions correctly. There are a number of contexts in which you might need to produce them:

- expressions related to time and place (*at home, by next year*)
- with verbs (*listen to, depend on, advise against, it belongs to me*)
- as part of fixed or semi-fixed expressions (*without a doubt, on the other hand, to my mind*)
