Question no 22-25**How To Use A Roomba**

If you haven't heard of a Roomba before, they are small robots that clean your floors for you, you set them and forget them! Don't worry if you have just been given one as a gift and aren't sure where to start, because we're here to help. Here is a quick breakdown of how to use a Roomba.

1. Find Out Which Roomba You Have

Some are Wi-Fi enabled that can be controlled from your phone, others that are lower down the ranking have an off and on the switch, and away they go.

2. Activate Your Roomba

The first thing you need to do once you have unboxed your Roomba is activating it. Those that come with Wi-Fi as you can control them by an app on your phone.

3. Find Space for your Base

You need to find a place to put the base. Unfortunately, you can't have this hidden away as the Roomba will need to find it once it has finished cleaning, so putting it in a cupboard isn't advised. Find a level open space where you can put it, so the Roomba can easily dock once it has finished.

4. Connect your Roomba

From here, open the app on your phone and start connecting your Roomba. You'll be asked to select what Roomba you have, so make sure you know the model, click on the picture that matches your model, and follow the prompts on the screen.

5. The First Clean

In this stage, your Roomba will learn about your house layout. It will take a while, especially if you have more than one floor

6. Start Scheduling

Once the Roomba has learned the layout of your home, you can then schedule a cleaning routine that meets your needs. Set it in the app, and away it will go.
